WONDER WOMAN

Veena Sharma

Veena is a motivated multi-disciplinary artist based in India. She earned her B.F.A degree at the accredited College of art, Delhi university in 1979 where she was taught by numerous famous artists such as Niren Sengupta, Krishan Ahuja and Manjit Bawa.

QUESTION AND ANSWER

WHAT INSPIRES YOUR ART PRACTICE?

Veena's artworks transcend reality by exploring a mix of various medias and styles. The strongest most defining aspect of Veena's aesthetic is that she never conformed to conventional rules, but made her own. Her art deviates from convention unbound from the rules that define society. She draws inspiration from her own experiences, mixing contemporary with traditional. Her artwork explores concepts like the joy of motherhood, nature and the beauty of femininity. By celebrating positive emotions she hopes to both empower and comfort through her art.

Her parents played a pivotal role by being both, her greatest motivators and her inspiration. Her father taught her the most basic aspects of art and life while her mother showed her how to fall in love with nature. Her artworks depict these teachings and joy she learned while growing up.

QUESTION AND ANSWER

WHAT DRIVES YOU TO KEEP GOING EVERY DAY?

To live life, remain positive and share my positive emotions, spread happiness and bright colors. To keep moving forward in life.
